Language

English

Experience

August 2022

Freelance project, Remote
Frontend Developer

- Developed a fitness website compatible with multiple browsers
- Coupled with animations and workout instructions. It was coded using CSS and React.js to develop features for both mobile and desktop platforms.
- Worked with user-centric design strategy in the translation of UX and requirements into coded solutions.
- Fetched data from Rapid-API using Axios.
- Project link - https://marchfitness.netlify.app/

May 2022

Personal project

Frontend developer

- Designed and developed a responsive landing page using React.js for an AI product
- Pixelated it using CSS variables and media queries.
- Animated the navbar using keyframes.
- Conducted testing and debugging to identify and fix issues, resulting in a stable and reliable website.
